

Green Power for Corporates

Green up and boost your business with ENGIE renewable power solutions

ENGIE, your global energy partner

Drive the energy transition with us!

A leader in renewable energy worldwide

28 GW in operation

11 GW pipeline

Let's build together your green power strategy

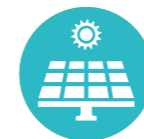

Benefit from a full range of customized solutions to meet your ambitions.

Corporate PPAs

Source your green power from renewable assets with ENGIE "Power Purchase Agreements"

Get a reliable and certified green power supply with a full visibility on price conditions. We meet all or part of your energy needs through new or existing solar, wind or hydro plants.

Onsite Installations

Leverage your site potential with decentralized solutions: rooftop PV, carports, etc.

Energy Management Services

Make the most of your renewable energy: price risk management, profiling, balancing, nomination services, etc.

Innovative Solutions

Benefit from ENGIE latest technologies: storage, micro-grids, blockchain, digital applications, etc.

Solar panels and wind turbines convert natural energy into green electricity.

The green electricity is injected into the grid.

You get the electricity when and where you need it.

#1

countries

ENGIE, a global energy player

ENGIE is committed to taking on the major challenges of the energy revolution, towards a world more decarbonised, decentralised and digitalised.

The Group aims to become the leader of this new energy world by focusing on three key activities for the future: low carbon generation in particular from natural gas and renewable energy, energy infrastructure and efficient solutions adapted to all its customers (individuals, businesses, territories, etc.). Innovation, digital solutions and customer satisfaction are the guiding principles of ENGIE's development.
